

Doctor Formulated Immune Health for Men*

Men's Probiotic

PR Labs **Men's Probiotic** contains 10 live strains of probiotics to promote gut, intestinal and colon health as well as immune support in men. Each serving contains 30 billion CFU's of proprietary blend probiotics.

What Are Probiotics?

Probiotics are beneficial bacteria and microflora that reside in the gut. These beneficial bacteria help eliminate bad bacteria and restore balance to the guts micro environment. Probiotics are critical in promoting digestion, nurturing immune system function, boosting the synthesis of certain vitamins, and aiding in the absorption of nutrients.

PR Labs Men's Probiotic

Each PR Labs Men's Probiotic serving contains 30 billion Doctor formulated CFU's of select live probiotics to promote gut, intestinal and colon health as well as immune support in men. Our probiotic was specifically formulated in a proprietary blend specific for men's health requirements.

Who Needs Probiotics?

Every man over 40 should be taking a daily probiotic supplement. It's essential to maintain healthy levels of beneficial bacteria all the time since as a group they play a critical role in maintaining overall health, including prostate and immune health.

Ingredients Based on Science and Research

The 10 live strains (30 billion CFU) in each PR Labs Men's Probiotic serving have been shown individually in third-party research studies and clinical trials to:

- Promote better immune health*
- Support better prostate health*
- Promote recovery from antibiotic treatment*
- Help restore the immune system to beneficial levels*
- Assist in recovery from colds, flu and other immune based disorders*
- Promote digestive and intestinal health*
